## Learning at The Ellis

### E-SAFETY

Technology is a fantastic tool for children to access and use but we need to ensure that children are keeping themselves safe online. More and more, children are accessing websites and video blogs which may not always be appropriate for their age range. Schools play a key role in promoting internet safety. As a school we ensure that e safety is taught regularly and the children are reminded about what they need to do to keep themselves safe online. Children are encouraged to research the sites CEOP and

ThinkUKnow. Please make sure you regularly check your privacy settings at home on all devices which can access the internet and regularly monitor sites/ videos your child may be accessing. Please let us know if you come across any sites which you know your child and others are accessing which has inappropriate content. Thanks for your support.
