

# XBOX

### Family Group

You can set up a family group and personalise child settings so that you can enable content filters, screen time and online purchases.

### Screen Time

Through the Xbox Family Settings app you can customise how much time is spent each day of the week and when the device can be used.

### Ask A Parent

Through Ask Parent, you will receive and email when your child wants to purchase a game or app.

### Filter Content

Parents are allowed to filter games, apps and websites and restrict access for their child so they only play age appropriate games.

### Manage Activity

You can block your child from joining multiplayer games, creating and joining clubs and broadcasting their game play.

### Block and Report

If you allow your child to play online, you can block communications from specific people and report harmful or offensive content.

## Download Family Settings App

Google Play Store  
(Android)

Apple App Store (iPhone)
